
Project Campus

Student & Instructor Settings - Full Specification

Page Layout Note: Settings is a separate full page accessed from the left sidebar. Left side renders a vertical navigation list of all sections. Right side renders the active section content. Follows the same dark theme, card system, and typography as the rest of Campus.

Section 1 — Account

Manage your account information, identity, and connected data.

1.1 — Email Address

Shows the current academic email, partially masked (e.g. ay***@ptuk.edu.ps). An "Update" button opens a modal.

- Student enters new academic email
- A verification code is sent to the new address
- The old email receives a security alert upon confirmation

1.2 — Password

Displays masked placeholder. A "Change" button opens a modal requiring: current password, new password, confirm new password.

- Don't forget the standards for writing a password
- Inline strength validation shown while typing

1.4 — Deactivate Account (Canceled)

A "Deactivate" button opens a confirmation modal explaining the account will be hidden and all activity paused.

- Student must enter their password to confirm
 - Account can be reactivated by logging back in within 30 days
 - All posts and data are preserved but hidden during deactivation
-

1.5 — Delete Account

Destructive action, shown in red. Opens a modal with a strong warning that the action is permanent and irreversible.

- User must type DELETE in a text field and enter their password
- All posts, messages, and data are permanently removed
- A 24-hour grace period email is sent before final deletion executes

Section 2 — Privacy

Control who can see your profile, activity, and information.

2.1 — Account Privacy

A segmented selector with two options:

- Public — any registered Campus user can view your profile and posts
- Private — only friends can see your full profile and posts; others see only name, university, and profile picture

Default: Public

2.2 — Who Can Message

Options: Everyone / Friends Only / Nobody

Note: if you are in private mode, then only friends can message you.

Note: a new messenger who's not your friend yet, would go to the request section

2.3 — Who Can See Your Friends List

Options: Everyone / Friends Only / Only Me

2.4 — Blocked Accounts

Displays the count of blocked users.

Description: "Blocked users cannot view your profile, send messages, or interact with your content."

Clicking opens a full panel popup containing:

- Search bar — search by username
- List showing: profile picture, username, university
- "Unblock" button next to each entry
- Empty state: "You haven't blocked anyone."

Section 3 — Notifications

Choose what you are notified about and how. Each item has two toggles: on or off.

3.1 — General

Master toggle: "Enable All Notifications" — turns all notifications on or off at once. Individual toggles are disabled when master is off.

3.2 — Social

- Friend request received
- Friend request accepted
- Someone reacted to your post
- Someone commented on your post
- Someone replied to your comment

3.3 — Communities

- New post in a community you follow
- Your community join request was approved or rejected

3.4 — Events

- An event you follow is starting soon — sub-option: student can choose before how many days to send a reminder (1 – 7 days)
- An event you follow has been updated or cancelled
- An event has started

3.5 — Announcements

- New official announcement from your university (can't be turned off)
- New announcement from a Page you follow

3.6 — Messages

- New direct message received (differs between an existing message or a new request)
- New message in a course group chat

3.7 — Account & Security

- Login from a new device or location (Canceled)
- Password changed successfully
- Email address updated
- Account deactivated or reactivated (Canceled)

3.8 — Receive email notifications or not (Canceled)

Section 4 — Appearance

Customize how Campus looks for you.

4.1 — Theme

Three options displayed as selectable cards with a color swatch preview:

- Dark — current default
- Light — inverted light background layout
- System Default — follows the device OS setting automatically

Default: Dark

Section 5 — Language

Set your preferred language for the platform interface.

5.1 — Language

A segmented selector with two options: English and Arabic (العربية). Switching to Arabic flips the entire layout to RTL.

A confirmation prompt appears: "Switching language will reload the page. Continue?"

Default: English

Section 6 — Security

Keep your account safe and monitor access activity.

6.1 — Two-Factor Authentication (2FA)

A student must have assigned at least a verified phone number or a secondary email.

Section 7 — Help & Support

Get help, report a problem, or learn more about Campus.

7.1 — Help (directs you to the help page, content will be provided)

A list of common questions rendered as expandable accordion items. Each expands inline to show a short answer.

Example questions: "How do I join a community?", "How do I report a post?", "How do I change my university?"

7.2 — Contact us

A form with the following fields:

- Subject — dropdown: Technical Issue / Account Problem / Report Abuse / Other
- Message — text area, max 500 characters
- Screenshot — optional file upload (image only)

A "Send" button submits the ticket. A confirmation message is shown after submission.

7.3 — Report a Bug

Same as Contact Support but with Subject pre-filled as "Bug Report". Includes an extra optional field: "What were you doing when this happened?"

7.5 — Privacy Policy (directs you to the Privacy Policy page, content will be provided)

7.6 — About us (directs you to the About page, content will be provided)

Displays: platform version, release date, and tagline: "Project Campus™ — A Unified Academic Social Platform."

Section 8 — Data & Storage

Manage your data, downloads, and storage usage.

8.2 — Clear Cache

A button that clears locally cached media and data. Shows estimated cache size.

A confirmation prompt appears before clearing.

Frontend only: Clears browser cache; no backend call required

8.3 — Auto-Play Media

Controls whether videos and animated content auto-play while scrolling the feed.

Options: Always / Never
